ECON401	Industrial Economics	7	3	0	0	3	5

Prerequisites	
Admission Requirements	

Language of Instruction	
Course Type	Compulsory
Course Level	Bachelor Degree
Objective	The course aims at familiarising students with different market structures and analysing the relationship between strategic behaviour and market structure.
Content	The course offers micro-economic and game-theoretic analyses of market structure and performance of industries starting with the analysis of a wide variety of noncompetitive market structures (such as the monopoly, various types of oligopolies competing according to Cournot, Bertrand, sequential moves, and location) in markets for homogeneous and differentiated products. The course proceeds with the analysis of entry barriers, entry deterrence and mergers.
