Course Type	Elective
Course Level	Bachelor Degree
Objective	The objective of this course is to comprehend the relationship between cinema and politics from its emergence to the 1940s. During the course it will be focused on how different groups from various countries, especially government authorities have sought to manipulate this form of art as a propaganda tool to interfere political processes. Within this context, the approach of political leaders to film industry, the organizations and institutions realized for the film industry by the initiative of the governments and the educational films, documentaries, cartoons produced as promoters of the dominant ideology will be discussed.
Content	At the first stage, the borders of the cinema and politics (relationship between politics and cinema is normally very huge subject) will be determined in the context of the subject of the class. Then, the use of cinema as a political tool for the political powers will be discussed beginning from the emergence of the cinema. The USSR and Germany experiences will be handled in detail. Attached to these discussions, different genres like documentaries, cartoons will be discussed. The relationship of the artist and politics will be discussed in general sense through some filmmakers like Riefenstahl and Furtwangler. At the last part of the class, the cinema in Turkey after the proclamation of the Republic.
