Prerequisites	
Admission Requirements	

Language of Instruction	Turkish
Course Type	Compulsory
Course Level	Bachelor Degree
Objective	<p>Industrial engineering management internship is an essential part of engineering education in applying the knowledge and skills acquired in the courses. Thanks to this course, which is a compulsory course in the curriculum, the knowledge that students will gain will be beneficial in adapting to the business life they will start after graduation. In this context, the objectives of the course are determined as follows:</p> <p>To enable students to examine the management processes of a medium-sized or large-sized industrial or service enterprise.</p> <p>To enable students to propose solutions based on industrial engineering to the problems encountered in management processes in different departments of enterprises.</p> <p>To help students discover their interests, prepare them for business life, and apply the theoretical knowledge learned.</p>
