| Course Level | Associate Degree |
| Objective | The students will gain knowledge and skills required for reading, understanding and using technical and administrative documentation in English for their on board activities. |
| Content | This course aims the students to gain proficiency in using technical manuals, following technical instructions and understanding procedural documents in English. It also aims to develop their skills to understand and apply engine department orders and prepare check lists. In addition, this course will also help them to communicate on board by using technical and social terms and phrases. |
