

Course Code	Course Name	Semester	Theory	Practice	Lab	Credit	ECTS
G114	Statistics	2	4	0	0	4	5
Prerequisites							
Admission Requirements							
Language of Instruction	French						
Course Type	Compulsory						
Course Level	Bachelor Degree						
Objective	The objective of this course is to familiarize students with basic concepts and tools of statistical methodology						
Content	1. Statistics as a tool of decision						
	2. Statistical series, function of distribution and measures of central tendency						
	3. Measures of dispersion						
	4. Probability						
References	Bernard Grais, "Statistique descriptive", 3eme edition, Dunod, Paris.

Theory Topics

Week	Weekly Contents
1	Introduction to Statistics
2	Statistical series
3	Graphs to describe numerical variables
4	Measures of central tendency
5	Measures of variability
6	Probability and its postulates
7	Probability Rules
8	Midterm exam
9	Bayes theorem
10	Random variables, mathematical expectation, variance and standard deviation
11	Hypergeometric distribution, Binomial distribution
12	The poisson probability distribution, the normal distribution
13	Discrete random variables and probability distributions
14	Continuous random variables and probability distributions
