Admission Requirements	

Language of Instruction	French
Course Type	Elective
Course Level	Bachelor Degree
Objective	<p>This course is designed to help students understand the important role that technological innovations play in the entrepreneurial process and to understand the process of establishing new technology-based enterprises using technological innovations. Entrepreneurship is the ability of an individual to make the best use of all the opportunities he or she has and to accept risks and bring an organization to success. Entrepreneurship is accepted as a character trait and those who exhibit successful entrepreneurship are called Entrepreneurs. This course provides knowledge and skills on the differentiating aspects of entrepreneurship at local, national and international and sectoral dimensions. However, first of all, students are taught about intellectual property and its protection. By encouraging students in the field of entrepreneurship, it is aimed to present their ideas verbally and in writing in the most effective way, to determine their resource needs and visions, and to make a concrete resource search study together with a business plan and to make a real entrepreneurship application (KOSGEB / TÜBİTAK, EU).</p>
