SP 741	New Social Movements	1	3	0	0	3	6

Prerequisites	
Admission Requirements	

Language of Instruction	Turkish
Course Type	Compulsory
Course Level	Masters Degree
Objective	The aim of course is discussing important elements of the political and social fields such as youth and women's movements, environmentalist and sexual-religious-ethnic minority actions and also cultural identity-based social movements, urban and anti-globalization movements in the context of the new social movement's theory.
Content	This course aims to discuss the post industrial phenomenon that is since 1968, elements which are perceived outside of the class relations has become the source of identity and occupied the central axis of the social conflict. Initially, in this context, identity movements based on space, generation and gender will be discussed with regards to New Social Movements Theory. In the second stage, anti-globalization movements will be discussed with their several examples, actors and concordantly, their relations with social media. In the third and final stage, examples from Turkey will be discussed with regards to the theories of social movements and evaluated comparatively with the other samples from different societies. In all these processes, connection of cultural identities and class identity will be of central importance.
