Prerequisites

Admission Requirements

Language of Instruction English
Course Type Elective

Course Level Bachelor Degree

This course provides a comprehensive introduction to the contemporary mechanisms of international dispute settlement. It covers both judicial mechanisms (International Court of Justice, Permanent Court of International Justice, inter-State arbitration, investment arbitration) and international commercial arbitration between private

parties. Students will gain a solid understanding of the legal foundations, procedures, key institutions, and political

and practical considerations involved in the resolution of international disputes.
