SOC430	Klinik Psikoloji II	8	3	0	0	3	6

Prerequisites	
Admission Requirements	

Language of Instruction	French
Course Type	Elective
Course Level	Bachelor Degree
Objective	These courses provide students with an understanding of summarizing and condensing psychological processes through the examination of character and personality splitting, personality disorders, problematic and addictive behaviours, emotions, passions, and delusions, intelligence and its types. They also aim to develop clinical analysis skills by integrating clinical psychology and theoretical concepts with the symptoms of mental disorders. This program will be supported by films, press articles and YouTube video clips. In this way, the evaluation of theoretical concepts with observable clinical situations will be ensured, and they will encourage critical and applied thinking of the students.
Content	Character and personality II. Clinical disorders: the 10 Personality Disorders and the different Behavioral Disorders III. Affects: feelings, emotion, mood, affective dispositions IV. Aggression and submission to authority V. Passion VI. Cognitive functions VI. Intelligence Levels and various intelligence tests VIII. Oligophrénia IX. Neurocognitive disorders
