Course Code	Course Name	Semester	Theory	Practice	Lab	Credit	ECTS
RI311	International Environmental Policies	5	3	0	0	3	5

Prerequisites	
Admission Requirements	

Language of Instruction	French
Course Type	Elective
Course Level	Bachelor Degree
Objective	To help students to analyze current environmental issues in the global governance, mainly the conservation and sustainable use of the biodiversity and climate change. The course explores the evolution of ecopolitics through the philosophical origins of ecocentrism and anthropocentrism and the transition from a state-level protection to a multilevel sustainable development paradigm.
