ECON282	Growth and Development	4	3	0	0	3	4

Prerequisites	
Admission Requirements	

Language of Instruction	French
Course Type	Compulsory
Course Level	Bachelor Degree
Objective	This cours aims at providing students basic knowledge about development and growth within economic thinking with refrence to the cases of developping economies.
Content	The course will begin with an overview of the economic theory from the viewpoint of development and growth. After the presentation of main models and different approaches, some case studies will be discussed and the course will end with a discussion on a possible rethinking of development perspective
