RI304	International Political Economy	6	3	3	0	3	5

Prerequisites	
Admission Requirements	

Language of Instruction	French
Course Type	Compulsory
Course Level	Bachelor Degree
Objective	The course aims at defining interactions between economic and political spheres, the relations between mega-institutions (State and Market), as well as global economy actors and prevailing regions. Main and hybride theories of international political economy (IPE) are explained and theretical debates explored in order to analyze current dynamics of the global economy and governance problems.
Content	The course is organized in two parts: First, IPE theories and their representative thinkers are presented; second, current international economic facts are analyzed.
