Langue du Cours	Turc
Type de Cours	Obligatoire
Niveau du Cours	Master
Objectif du Cours	<p>Dans ce cours, il est visé à fournir les étudiants la capacité d'évaluer des médias interactifs divers aux niveaux de contenu et de forme. Premièrement, le cours inclut une analyse détaillée des phénomènes d'Internet et de Web basée sur l'historicisation et les projections de futur. Cette évolution, qui présente une diversité aux niveaux d'utilisateur et des médias, sera étudiée par une conceptualisation sur les environnements interactifs très connus. Partant d'une analyse de l'histoire de « l'interaction homme-ordinateur », des concepts « d'interface graphique d'utilisateur » et « d'utilisabilité » seront explorés par des études récentes. Dans ce contexte, des principes et les procédures de design d'interface seront présentés en se concentrant sur des exemples des médias divers tels que des sites Web, des portails, des interfaces mobiles, d'IPTV, etc. À la fin du semestre, les étudiants seront exigés pour évaluer quelques médias interactifs et pour fournir des suggestions pour des révisions si nécessaires.</p>
